CHILD SAFETY

On-Site security cameras are an added measure of protection and we are conveniently located across the street from a state of the art Park District playground. In addition, there is a second Park District playground located directly behind us.

CLASS SIZE

Our child-to-staff ratios are very low and above the standards. This allows us to take advantage of having Millennium Park as our “backyard”, as well as engage each child in the many field trips and activities we have planned for the summer.

Lakefront Children’s Academy is a full service private academy with an enhanced curriculum and educational program. We at LCA believe that every child can grow to contribute positively to our society as adults. Our child care programs are planned, staffed and directed in a manner which will enable each child to be given proper supervision while they actively engage in required experience enhancement activities. Within a safe environment, each child is stimulated to explore and develop.

Recognized in the December ‘02 issue of “Child Care” Magazine as one of the top Child Care Centers in the USA.
